The Spark That Leads

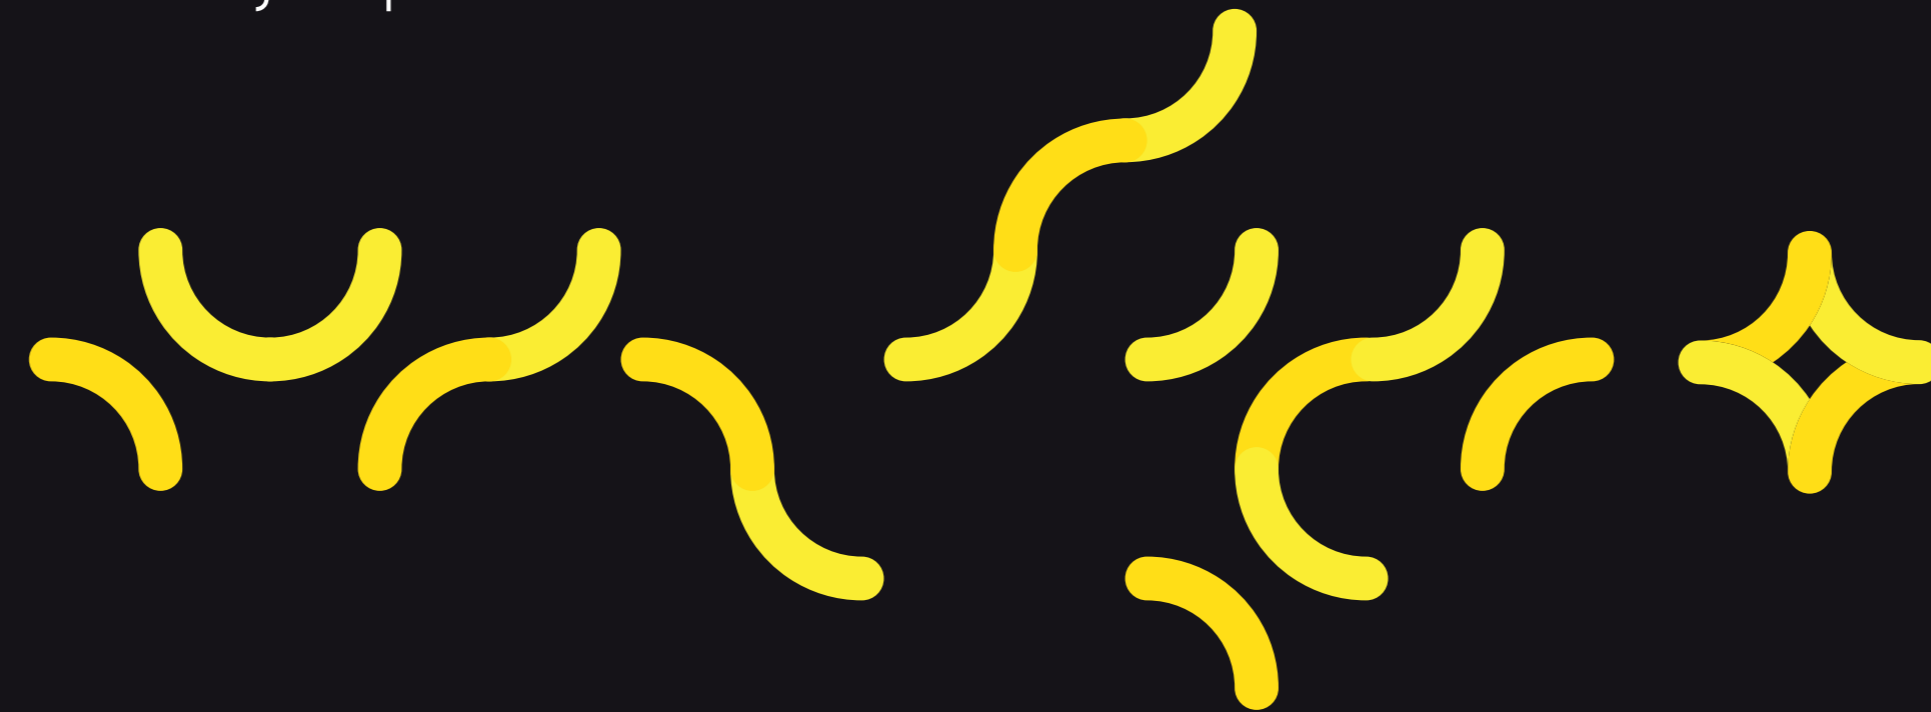

“

Innovation is not simply about building new tools — it's about creating possibilities where none seemed to exist. At Innovator Spark, we believe every idea deserves the chance to shine. With the right guidance, expertise, and vision, even the smallest spark can grow into a force that lights the way forward.

Mihai Runcan-Pop

Founder & CEO, Innovatorspark

(Cluj-Napoca, Romania)

References

Mihai is a valued talent partner of our company and has been a part of our recent growth. He consistently provides a high level of professionalism. He is very responsive, friendly, and transparent in all communications. He and his team have a solid technology talent pool and come through when we need them. One of their Full-Stack Software Engineers even scored a perfect score on a very difficult technical evaluation from one of our biggest clients. I know that I can count on Innovator Spark and they deliver great candidates in a very timely manner.

Vice President

Company under NDA

(Florida, USA)

Over 3 plus years with Winnow, Mihai built a legacy of substantial achievement and goodwill from virtually all his colleagues, myself included. Mihai was the local leader and the driving force behind helping Winnow build its team in Romania from 0 - 35 employees. He has the rare combination of high IQ, high EQ, and a strong work ethic...

Should you have the opportunity to work with Mihai, I heartily recommend that you do so - and take pride in having given you such good advice!

Kevin Duffy

Co-founder & CPO, Winnow Solution

(London, UK)

What makes your success

★ Strong Quality & Team

We are based in the Silicon Valley of Romania, this gives us access to talented people and competitive prices.

We choose to grow leaders by supporting our team to grow professionally and personally. This creates a deep sense of connection and responsibility. This creates a family.

💬 Excellent Communication

Strong Communication is the key to remote work.

Our experts are equipped with great technical and communication skills. This ensures project delivery on time and excellent quality.

∞ Connecting Strategy & Execution

By understanding your requirements and your business we help you make the best decisions and find the most efficient solutions. Because we know that long-term partnerships are more valuable than short-term profits.

🌐 Large Experience

We are a seasoned Team with a combined experience of over 150+ years and more than 300 international Projects.

Our core values

✦ Trust

We treasure that feeling of being in good hands. It comes with confidence, understanding and commitment. This is what we have to offer our clients in the first place as it represents the very essences of who we are, how we handle things and how we relate to every aspect of our work.

✦ Quality

We are an extremely skilled and dedicated team of professionals with many years of experience in the industry. For us, quality is the expression of good communication, flexibility, and connection combined with our expertise and dedication.

✦ Fun

As a team, we like to balance professionalism and fun, reliability and a free spirit. We do laugh a lot together, but we also strive together for the best results. It keeps alive our enthusiasm and joy, and help us feel more connected with each other and with everything that we do.

✦ Communication

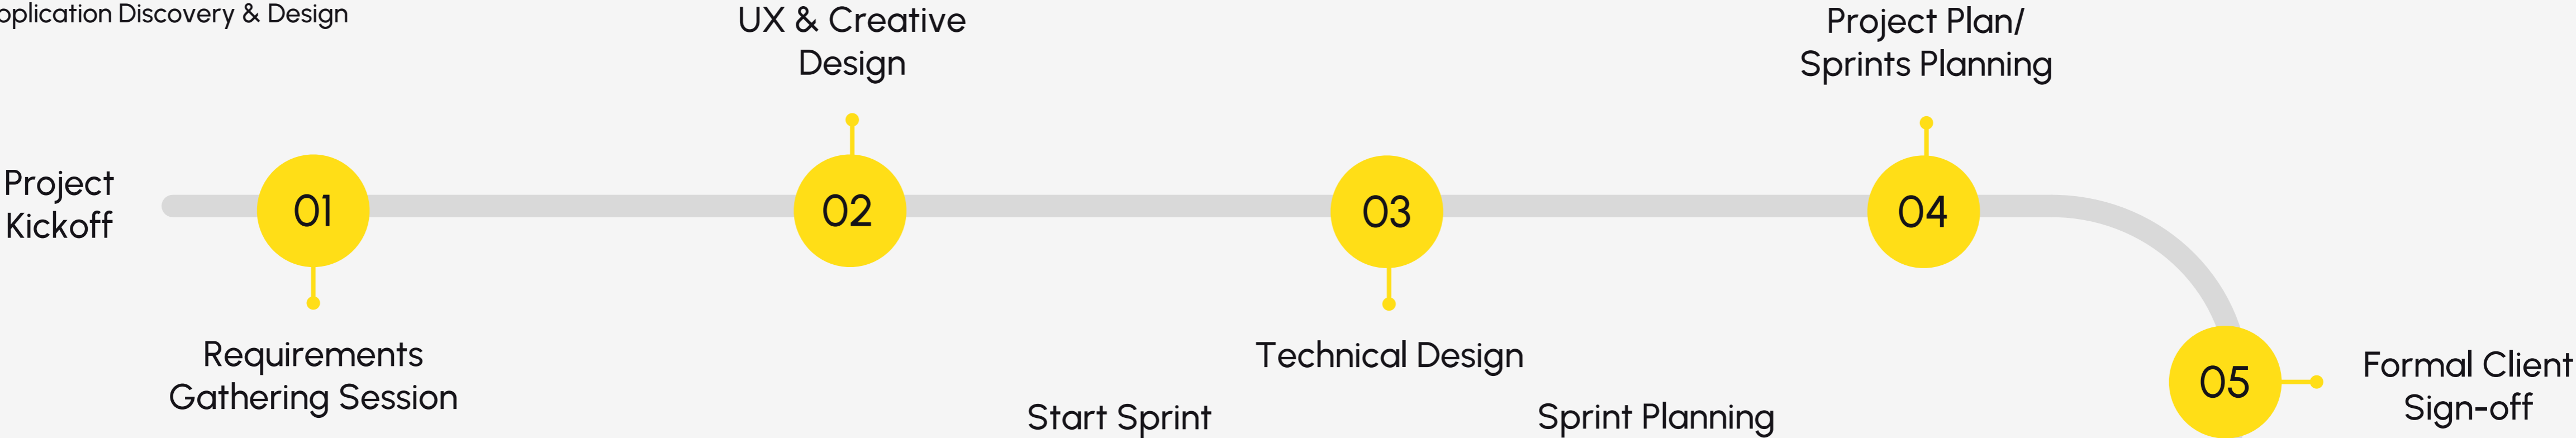

We love working together and we love watching our projects grow. We treasure transparency and constructive feedback and this always leads to trust and to a family like environment that allow us to feel comfortable and express the best of us. Because open and clear communication, both inside the team and with our partners, is among the things we value most.

✦ Teamwork

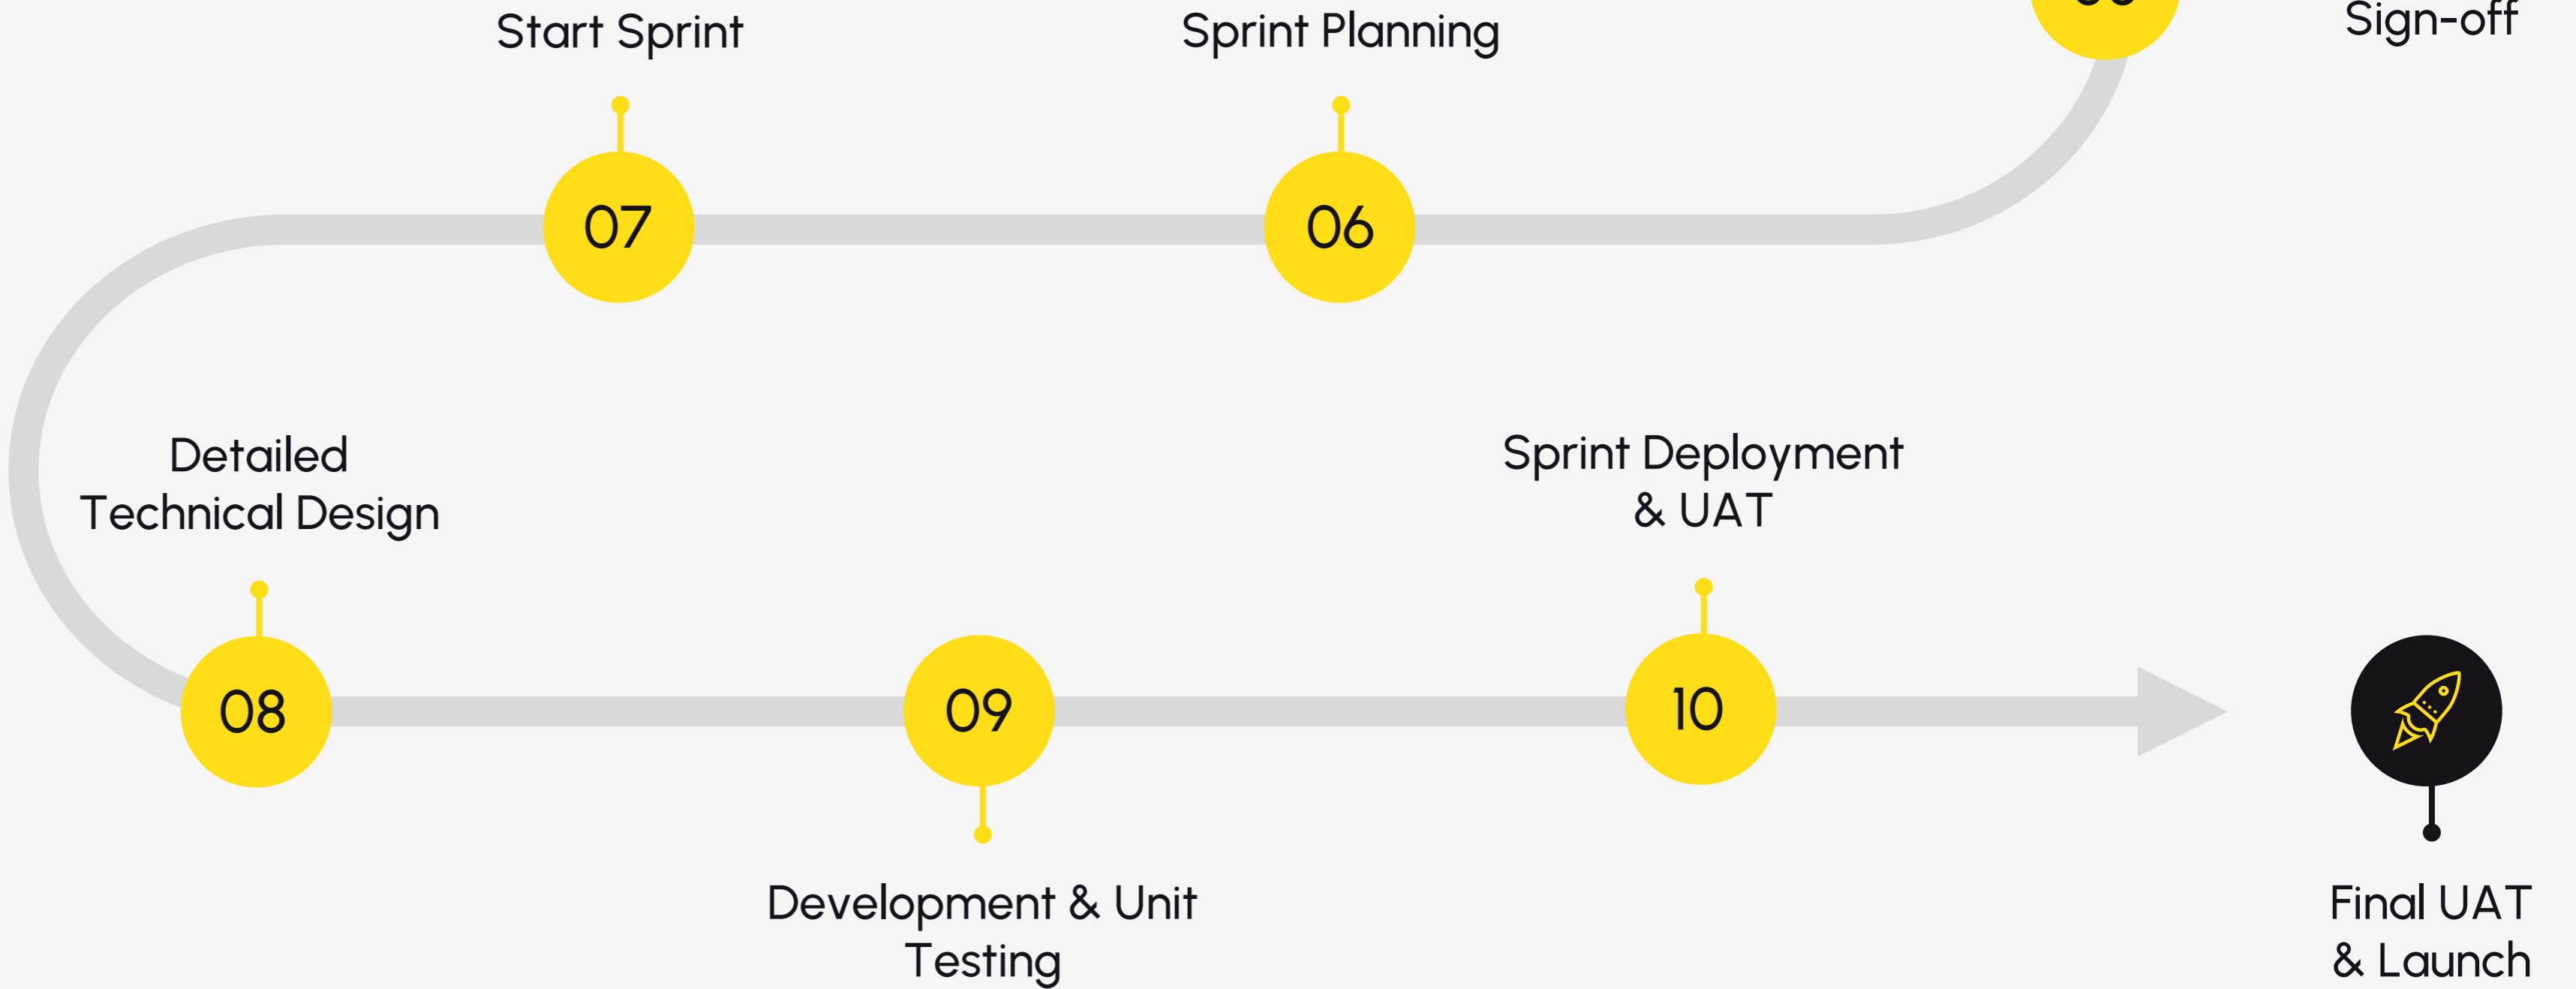

It might seem a corporate cliché, but for us it really is something that we value. Working together, acknowledging everyone's potential and strengths brings balance to our work.

Project Process

Phase 1: Application Discovery & Design

Phase 2: Agile Development & QA/Testing

Logic Melon

Every CRM in the market fell short of our client's requirements. We stepped in, not just as a software developer but as a visionary partner undertaking the formidable task of developing a custom CRM from the ground up, tailored precisely to their unique needs.

Project Details

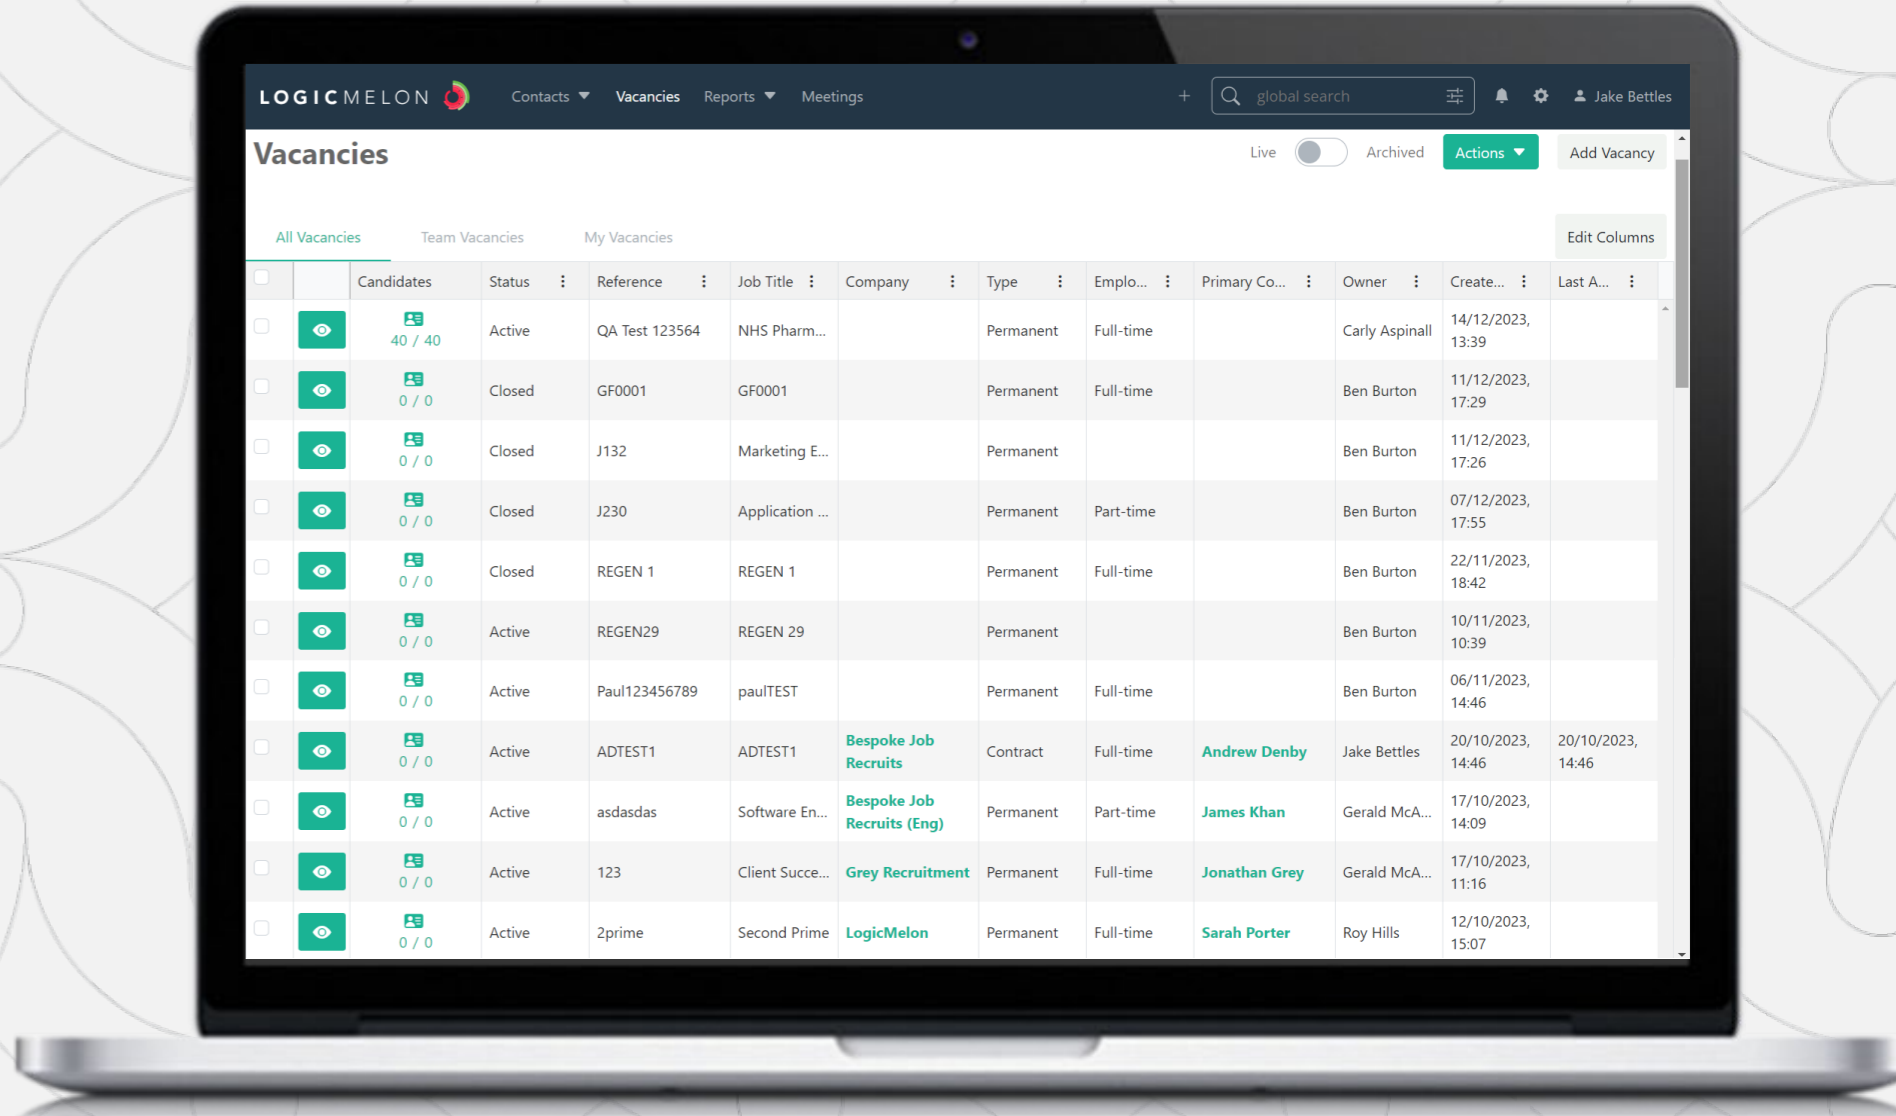

We designed and created a custom Client Relationship Manager that was integrated with LogicMelons bespoke recruitment platform.
